Terry is a really good prof and patient.

Enthusiastic teacher and very interesting class

Teaching the projects and helping students with technical aspects and ideas

very knowledgeable + enthusiastic

Passing information across

1. What are the major strengths of the instruction in this course?

(Compiled page 3 / 3)

• The instructor is always there for student.

There was a lot of detail and support when learning about different projects

Knowledge of materials and the process was fantastic!

Very helpful

He tells you specifically what he is looking for, gives detailed feedback, he was very flexible

He put instruction online

Very friendly

Informative

Very, detailed and gives a lot of help as well as good feedback

2. What aspects of this course were most beneficial to you? (Compiled page 1 / 3)

Learning about different methods

creativity + being open minded

. the amount of self directed work . interesting/motivating projects

I would like to become an architect therefore by taking this course I am able to use some of the material to fill up my portfolio.

Explanations of various projects & concepts & Examples

Using new methods and materials

Conceptual Art Handling plaster

I love the project of the life cast.

ART 21 video and class discussions

The idea behind arts pieces.

2. What aspects of this course were most beneficial to you? (Compiled page 2 / 3)

The prof and T.A. were extremely friendly and always willing to help:

- learning new things
- getting to try things I wouldn't try normally

Thinking outside the box

I gradually know what is art!

Kept me interested and I learned a lot

Expanding my technical abilities in art and my art and design knowledge

Learning about casting.

time to work

learning about different materials and seeing what others did to achieve the concepts

2. What aspects of this course were most beneficial to you? (Compiled page 3 / 3)

The critiques. I got to learn how to express my ideas and further understand my classmates

Funny - Learn some ~~set~~ skills.

Everything

It was extremely good for me & my mental health to come to a class where I just work with my hands & be creative instead of reading out of a textbook like my science courses.

The time he puts on every project

Lots of flexibility

The techniques

Work with your hands.

The instructions and art projects.

3. Was the instructor available for a sufficient amount of time, in or out of class?
